ORTFOLIO

ARCHVIZ Ltd.

The design philosophy of ARCHVIZ is that all work should be thoughtfully considered, and that the projects should be designed so that they are respectful of their surroundings.

Architecture, done well, enhances the experience of life. ARCHVIZ projects choreograph space, light, context, materials, and craftsmanship in the service of improving human experience— those of our clients, and the members of the communities in which they live.

Thoughtful consideration includes several aspects. Foremost, an effective architect must be a good listener. We start the design with a clear understanding of the client's concerns, lifestyle, and goals. Successful projects are generated from an open, honest, and collaborative relationship between the owner, the architect, other consultants and eventually the contractor.

ARCHVIZ believes that projects should be respectful of their context. Building materials, roof shapes, connections, etc., are thoughtfully considered to achieve an appropriate, integrated, and often seamless whole. Projects should also be respectful of their sites, their adjacent neighborhood and the community.

We've been identified as visionaries, a brand we welcome. Great spaces begin with intense vision. Our experience ensures this intensity takes form within budgets.

Agami Apparels LEED Gold

64/110

The Dekko Legacy Group is a leading apparel group in Bangladesh. The group ensures to strengthen its values by performing its social responsibility towards environment incorporating sustainable facets. It is backed by ambitious entrepreneurship with a number of facilities in and around Dhaka, Bangladesh. Under an expansion program, a new state of the art “GREEN” factory, ‘Agami Apparels Ltd. (AAL)’ was established Dhononjoypur, Katgora, Ashulia, Savar, Bangladesh.

In order to demonstrate its responsibility to protect the environment and reduce operating costs, Agami project team has set new standards by obtaining “LEED” (Leadership in Energy & Environmental Design) Gold certification for the new facility from the Green Building Council of the United States (USGBC). Agami Apparels Ltd. contested and qualified for 64 credit points and eight prerequisites (8) and was awarded LEED Gold on the 15th of October 2019.

VISIONARY FATULLAH APPARELS AWARDED LEED PLATINUM CERTIFICATION

Meeting the demand for qualitative and sustainable change in the global supply chain of the rapidly recovering garment industry, Fatullah Apparels Ltd received the prestigious LEED Platinum Certification for New Construction from the US Green Building Council (USGBC) for its knitwear manufacturing facility located in Jalkuri, Narayanganj, Bangladesh.

The construction scored 97 out of 110 points, a milestone achievement that helped claim ownership as the top individual score among USGBC knitwear-certified factories, and cement its place in the top 10 green apparel manufacturing facilities worldwide.

The new construction of the Fatullah Apparels facility in Jalkuri began in October 2017 under the guidance of the company's visionary leadership, and consultation from industry experts including LEED assessment and advice from sustainable engineering consultant, Environ Pvt. Ltd and architectural services from Archiviz Ltd. With its strategic approach from the onset of the construction, Fatullah Apparels was awarded the LEED Platinum certification for

implementing practical and measurable solutions aimed at achieving high sustainable performance across a number of areas. Fatullah Apparels continues to be guided by the sustainable vision of its leadership for a greener future that will encompass ecofriendly practices across the entire business operation, and plans to continue its pace of transformation for the benefit of all its stakeholders.
